To who it may concern

I am writing to let you know that I love your Perfect Secret skin serum. I have been using it for 6 months now, with really good results.

I have always struggled with really dry skin that is flakey and ashen in appearance. I also have hyper-pigmentation – dark spots basically, which have been the result of eczema when I was younger.

When I read about your product and that it is particularly hydrating as well as healing, I decided to give it a go, I have tried lots of different products in the past but none have given me as good a result as your product.

Not only has my skin lost that grey tone, the dark spots have also faded. My skin feels much softer to touch and is much more hydrated and smooth.

Thanks for a great product!
